

Bownham Park Rodborough Residents' Association Ltd

Newsletter May 2014

Dear Residents,

I remember a very successful Indian businessman once telling me his philosophy; "The harder I work, the luckier I get." It seems that this equally applies to our Secretary, Martin Clements. Apparently, in order to see some online information from a white lining company he was required to give an email address which automatically entered him into a completion which he won. The 1st prize was 100kg of tarmac, bonding spray and a tamping tool. Since receiving the prize he has been seen on a regular basis filling in potholes around The Park and a remarkable good job he has made of it. Well done Martin, we all appreciate your hard work.
